Please see the schedule and map showing where and when everything will take place!!
- **Our CALM CORNER is available with quiet activities. Please see the map.** This space will provide a calm and comfortable setting with minimal sensory input, allowing children who are sensitive to noise and crowds an opportunity to enjoy the event at their own pace. To maintain the tranquility of this area, we kindly ask that children and families remain quiet while in this area to ensure that all children, regardless of their sensory needs, can participate in the day's activities and feel included.
- **Throughout the day, your children and guests are your responsibility.** The parking lot will be busy and crowded with lots of fun activities! We want everyone to enjoy themselves in a safe way!
- **Restrooms & cooling are available in the hallway near the movement lab and in classrooms 109 & 111.**
- **If you have any kind of emergency situation, please find a staff member, most of which will have a walkie talkie and can be identified by their Stock School Shirt.**
- **See the Family Fun Festival schedule and map for the events of the day!**
- **Most importantly, have a wonderful time!**
